EXPERIENCE

Trainee Software Engineer – HSBC

July 2026 – Present

Pune, India

Building a **Vite + React** frontend for an internal finance automation system that replaces a legacy Excel-based workflow, consuming a **Python (FastAPI)** backend with multiple REST APIs.

Developing read and update interfaces to interact with structured Excel-derived data through the new system.

Software Engineer Intern – AutoFlow AI

Dec 2025 – Jan 2026

Remote

Contributed as a **Full Stack Developer** using **Next.js** for frontend and **NestJS** for backend services.

Designed and developed scalable **RESTful APIs** with a modular, maintainable architecture.

Integrated **MongoDB** to manage schema-driven application data and optimize query performance.

Collaborated via **GitHub** for version control, code reviews, and feature-based development.

Skills: Next.js, NestJS, MongoDB, REST APIs, Google Cloud Platform, GitHub, Typescript, Tailwind CSS

Full Stack Developer Intern – Saarthee Actionable Insights

June 2025 – Aug 2025

Gurugram, India

Architected scalable backend solutions using **Django**, improving API responsiveness by **35%**.

Optimized complex **SQL** workflows and refactored queries, reducing overall database load.

Built interactive ReactJS + Tailwind dashboards, enhancing user task completion speed by **20%**.

Integrated AWS services (EC2, S3, IAM) to improve deployment reliability and reduce downtime by **25%**.

Implemented **CI/CD using Bitbucket Pipelines** for automated builds and deployment workflows.

Skills: Django, SQL, ReactJS, Tailwind CSS, AWS, Git, CI/CD, PostgreSQL

EDUCATION

National Institute of Technology, Kurukshetra

Kurukshetra, India

Bachelor of Technology (B.Tech.) in Computer Engineering

Nov 2022 – May 2026

CGPA: 8.98/10

D.A.V. Public School

Kurukshetra, India

High School Diploma - Engineering

Apr 2021 – Apr 2022

Percentage: 94%

TECHNICAL SKILLS

Programming Languages: Java, C++, Python, C, SQL

Web Development: HTML, CSS, JavaScript, ReactJs, NextJs, Node.js, Django, Express, MongoDB, Tailwind CSS, PostgreSQL

Tools and Libraries: GitHub, Visual Studio Code, FastAPI, MS Excel, PowerPoint, MS Word, AWS, CI/CD

Data Analytics and AI: Data Analysis, Data Mining, Generative AI, Deep Learning, Machine Learning

PROJECTS

DaanKaren – Donation Platform (Live & Deployed)

daankarendeployed-1.onrender.com

MERN Stack

ReactJS, ExpressJS, NodeJS, MongoDB

Built and **deployed** a full-stack donation platform enabling **monetary and goods-based donations**, live in production.

Implemented secure **role-based access control** and JWT authentication, reducing unauthorized access attempts.

Optimized API workflows and MongoDB queries, improving request latency by **40%**.

ExportCo (Live & Deployed)

export-business-platform.vercel.app/

Next.js + Supabase

TypeScript, PostgreSQL, Tailwind CSS

Designed a scalable export management platform using Next.js and TypeScript with a modular folder architecture.

Built reusable UI components and shared Zod validation schemas for RFQ and admin workflows.

Supabase-backed product, inquiry and order management with role-based authentication.

ACHIEVEMENTS & CERTIFICATIONS

Solved **600+ DSA problems** on [LeetCode](https://leetcode.com/) (C++: 350+, Java: 200+, SQL: 10+)

Google Cloud Skill Boost: Generative AI Learning Path Completed

[IBM Machine Learning Course](https://www.coursera.org/learn/machine-learning) (Coursera)
